

WEBB-WARING BIOMEDICAL RESEARCH PROGRAM BOETTCHER INVESTIGATORS

Inaugural Class 2010

Shaodong Dai, Ph.D., Assistant Professor of Immunology, National Jewish Health, Chronic Beryllium Lung Disease

Robin Dowell, D.Sc., Assistant Professor of Molecular, Cellular and Developmental Biology, University of Colorado at Boulder, Translational Bioinformatics Involving Drug Efficacy and Genetics

Gidon Felsen, Ph.D., Assistant Professor of Physiology and Biophysics, University of Colorado – Anschutz Medical Campus, Parkinson's Disease

Paul Jedlicka, M.D., Ph.D., Assistant Professor of Pathology, University of Colorado – Anschutz Medical Campus, Ewing Sarcoma, a Common Cancer of the Bone and Soft Tissue Affecting Children

Keith Neeves, Ph.D., Assistant Professor of Chemical Engineering, Colorado School of Mines, Role of Blood Flow in the Formation of Blood Clots

Melissa Reynolds, Ph.D., Assistant Professor of Chemistry, Colorado State University, Nitric Oxide Releasing Materials for Cardiovascular Medical Devices

Investigators listed left to right

BOETTCHER[®]
F O U N D A T I O N

Congratulations Class of 2011

Zhe Chen, Ph.D., University of Colorado Boulder

Robert Doebele, M.D., Ph.D., University of Colorado Anschutz Medical Campus

Jing Wang, M.D., Ph.D., University of Colorado Anschutz Medical Campus

John D. (Nick) Fisk, Ph.D., Colorado State University

Tingting, Yao, Ph.D., Colorado State University

The Webb-Waring Institute was founded in 1924 by Dr. Gerald B. Webb and later directed by Dr. James J. Waring. For over 80 years, the organization contributed to the advancement of biomedical research by engaging in basic and clinical research and training research scientists. In 2008, the Webb-Waring Institute became a part of the University of Colorado and is now known as the Webb-Waring Center. The Boettcher Foundation was entrusted with the stewardship of the Webb-Waring Foundation's assets. Through an innovative agreement between the Boettcher Foundation, the Webb-Waring Foundation and the University of Colorado, a new funding area was established at the Boettcher Foundation that will support the work of early-career investigators in the biomedical sciences in Colorado.

For more information about the Boettcher Foundation, please visit www.boettcherfoundation.org.
